

**ECN No:** 11  
**Date:** 28 September 2012  
**Affected Product:** Excel 3 & 4 Compartment Floor Boxes and Accessories  
**Effective Date:** From October 2012 onwards depending on existing stock levels

## Changes to Excel Three & Four Compartment Floor Boxes

The 3 and 4 compartment floor Excel floor boxes are being changed to improve the performance and flexibility. The new chassis, common to both the 3 and 4 compartment floor box, has been widened to improve the room and cable accessibility for the data cables and the power cords.

The 3 compartment floor box is now fitted with an adapter to fit a standard DIN sized MCB if required.

The Excel Floor box features reversible lid, improved load rating and improved floor fixings. Full details are available in the new specification sheet available on the online catalogue at [www.excel-networking.com](http://www.excel-networking.com)

The new boxes are due in during October/November and will replenish the existing stock. This new portfolio will become available once existing product has been exhausted.

Note: Existing accessories for the 3 compartment floor box will fit in the new style. Accessories for the 4 compartment are not compatible between existing and new floor box.

### 3 Compartment

Item	Existing Part No.	New Part No.
