

AXIS T91B50 Telescopic Ceiling Mount

Expandable ceiling mount for PTZ and fixed domes

AXIS T91B50 Telescopic Ceiling Mount is ideal where a PTZ /fixed dome camera needs to be installed in a high ceiling. The telescopic functionality allows the installer to adjust the length in an easy and secure way (up to 2 m/79 in). If a longer length is needed, two extension pipes are available, 30 cm (12 in) and 100 cm (39 in). The mount is designed to swing and not break if hit by forklifts or tall vehicles. It can also be installed in sloped ceilings thanks to the ball joint, which ensures that the camera is still hanging straight.

- > **For outdoors and indoors**
- > **Robust and safe installation**
- > **Support for Axis PTZ domes and fixed domes with 1.5" NPS thread**
- > **Flexible length, up to 5 m (197 in) with extension pipes**
- > **Swivel action with $\alpha \pm 45^\circ$ pivot angle**

AXIS T91B50 Telescopic Ceiling Mount
