

Storage Dense, High Performance 3-Bay Tower Video Appliance

The VSS-T3 enables maximum storage and throughput in a space-efficient tower. Up to (3) 3.5" video grade SATA drives offer up to 48TB of raw storage, providing room for future scalability.

The VSS-T3 comes equipped with the latest Intel® 9th Generation Core™ processor, providing nearly 20 percent more computing performance than previous 8th generation processors. Support for up to 64GB of DDR4 memory allows for plentiful local resources, while a NVMe M.2 solid state drive accelerates boot and application load times for increased performance and a reliable user experience.

System Reliability

System stability, and peace of mind is provided with redundant, hot swappable power supplies, an operating system solid state drive, and a three-year, on-site, next business day, Keep Your Hard Drive warranty.

Keep Your Hard Drive

With Video Storage Solutions' Keep Your Hard Drive warranty, your sensitive data and hard drive never leave your control. It also helps you comply with current data privacy regulations and internal company policies by ensuring sensitive information on your hard drive is not compromised, mitigating the risk of expensive civil litigation if confidential customer data or intellectual property were to be exposed.
