

KVM-0223 Version: 2

2-Port USB VGA Cable KVM Switch, VGA, USB, two-way audio

The LevelOne KVM-0223 USB Cable KVM Switch offers users a high resolution VGA video interface and eliminates connection headaches with two sets of fixed USB KVM & Audio / Mic combo cables. A wired QuickSwitch! button further enhances the user's experience by switching from one computer to another with just the touch of a button. The LevelOne KVM-0223 also supports switching client software with both Windows and Mac OS supported. LevelOne freeware can be installed on networked computers for intuitive menu-driven switching action. A desktop icon displays which port is currently active, giving users an easy interface with the devices, an LED display provides easy status monitoring and keyboard hotkeys offer even more convenience with a third way of switching between devices. The two USB 2.0 keyboard and mouse ports are transparent USB hub ports that feature full driver support for advanced keyboard/mouse action. In addition, they can also be connected to other high-speed devices such as USB disk storage.

Key Features

- Control and manage 2 computers by using a single USB keyboard, mouse and monitor
- 1 x wired QuickSwitch! Button for instant switching
- 2 x fixed VGA USB KVM audio/mic combo cables
- Windows and Mac switching software support
