

SFP+ Direct Attached Cables Datasheet

The Edgecore SFP+ Direct Attached Cables are suitable for very short distances and offer a cost-effective way to connect 10G switches, servers and Storage Area Networks (SAN) within racks and across adjacent racks. Edgecore offers passive DAC cables in lengths of 1, 3 and 5 meters.

Key Features and Benefits

- ◆ **Varied Distance and Speed**
Edge-Core's DAC cables provide various distance from 1m, 3m and 5m with 10GE speed.
- ◆ **Standard Compliance**
- ◆ **SFF-8431 compliant**
- ◆ **Low Power Consumption**
- ◆ **Support for multi-gigabit data rate up to 10.5Gbps.**
- ◆ **30AWG/ 28AWG**
- ◆ **Hot Pluggable**
- ◆ **EMI/EMC Compliance**
- ◆ **AC coupling of PECL signals**

SFP+ Direct Attached Cables Datasheet

Specification and Features

10G SFP+ Direct Attached Cable: ET5402 Series							
Models	Connect Speed	Wavelength	Transmission Distance	Connector	Fiber Mode	Supply Voltage	Temperature
ET5402-DAC-1M	10Gbps	*	1m	DAC		*	*
ET5402-DAC-3M	10Gbps	*	3m	DAC		*	*
ET5402-DAC-5M	10Gbps	*	5m	DAC		*	*
