NEW Net2 Entry Audio Monitor

Joining our premium and vandal resistant products, the audio monitor provides a cost-effective option and completes the Net2 Entry range. This latest addition increases the versatility of our door entry system, helping to build a fully customisable solution suitable for any site.

- Fully supports all Net2 Entry functionality, where video is not required
- Sleek, contemporary design to fit discreetly into any surroundings
- Flexible installation options; can be wall mounted or used with an adjustable desk stand
- Available with or without a handset
- Action buttons configurable for a range of requirements
- Optional connection to a sounder or beacon to offer enhanced, accessible call notification

Benefits of Net2 Entry:

Flexibility built in

- Works standalone or as part of a networked access control system to grow with your site requirements
- Compatible with Net2 and PaxLock Pro for a complete solution
- Reads Paxton, MIFARE® and HID™ 125kHz Proximity tokens*
- Highly scalable, allowing expansion of up to 100 panels and 1,000 monitors

Versatile solution for a range of sites

- Create custom solutions with the full Net2 Entry range
- Premium, standard and cost-effective options available
- Robust solution with vandal resistant panels

Quick and easy installation

- Just 3 components: monitor, panel and door controller, auto detect on setup
- True plug and play solution for simple, time saving installation
- IPV6 and PoE technology for easy expansion

User friendly and accessible

- Quick visitor verification and day-to day access for users who have a token, PIN or code
- Simple integration with doorbell input
- Line-out for use with T-Loop antenna for users with hearing aids

* With activation of Genuine HID Technology™
