

Sarix Enhanced 4 Series Camera

See and hear the future of security

The Sarix Enhanced 4 Series camera introduces new analytic capabilities and sets an even higher standard for security by simultaneously running multiple analytics. Extract more information and in greater detail to optimize threat detection and response efficiency. Discover an unprecedented level of security, where sight and sound come together. Designed with a built-in microphone, the camera identifies loud noises, such as gunshots¹ and glass breaking, while recording audio when necessary. With complete engagement of sight and sound, be fully aware of your surroundings and confidently respond to an event before it unfolds, rather than react as it transpires.

Protect more things at once

Leverage Pelco Smart Analytics to detect human and vehicle events. Enhance capabilities further with advanced features such as crowd thresholds, basic feature identification, vehicle type differentiation, privacy masking, crawling detection and audio analytics².

Secured from the inside out

The Sarix Enhanced 4 Series camera ensures high data-security with onboarded TPM, Secure Boot and FIPS-140-2 Level 3 compliance. Manufactured in North America, NDAA and TAA-compliant, it's an ideal choice for security-focused businesses and organizations.

Enhanced clarity and coverage

Capture crucial details and provide valuable evidence with clearer, sharper footage. Record up to 60 frames per second for fast-moving objects. Ensure optimal security day and night with wider dynamic range, split IR dome and IR Illumination options.

Elevate enabled

Enhance your camera management with cloud-based AI intelligence, seamlessly integrating with your existing system. Cut maintenance costs by automating camera checks and receiving notifications for image health or cloud connection changes.

Resilient in every condition

Save on maintenance and operational costs with the camera's durability. Handle even more extreme weather conditions with wider operating temperature ranges and IP66, 67, 68 and IK10/11 ratings³.

Increased compatibility

Easily integrate Sarix Enhanced 4 with any third-party VMS using ONVIF S, G, T, and M conformance. Genetec and Milestone users have the ability to unlock analytics to their full potential with the introduction of Pelco Connect. This powerful add-on provides access to a range of advanced functionalities.

¹ Separate license required.

² Crowd Threshold, Vehicle Subclasses and Facet Metadata capabilities will be dependent on VMS and configuration availability. Privacy masking will be available post-launch via a firmware release.

³ Environmental ratings may vary.
