

# GOVERNMENT SOLUTIONS

100% NDAA-Compliant  
Video Security Solutions

**FELCO**<sup>®</sup>  
a Motorola Solutions Company

# TRUSTED BY GOVERNMENTS GLOBALLY

Protecting citizens and a nation's property is the highest priority for government agencies. Followed closely by adhering to ever-evolving regulations. Government employees need to ensure compliance with regulatory procedures and document incidents to build evidence accordingly.

Securing people, facilities, and assets of government at all levels including borders, ports, embassies, and military bases are critical tasks. Security leaders in this segment must monitor sensitive and extensive areas preventing intrusion, internal or external theft as well as tailgating.

## PROVIDE A SAFE AND SECURE WORK ENVIRONMENT

With a global footprint with government projects worldwide since 1957, Pelco continues to provide innovations to support security and safety initiatives in this dynamic market. Our vast spectrum of cameras can monitor any situation, from challenging lighting to harsh environments with extreme temperatures and corrosive elements. We cover broad perimeters with high-quality imagery to capture details for an active investigation. Pelco's VideoXpert video management system combined with AI analytics, helps operators detect threats with customized event alerts for shorter response times.

Third-party technology integration capabilities with VideoXpert VMS allow security personnel to monitor all operations in one single interface and receive signals in one place, allowing for full situational awareness and operational efficiency.

## ENSURE COMPLIANCE WITH REGULATORY PROCEDURES & CYBERSECURITY

Government agencies, embassies and military bases must continually comply with evolving regulations. Any equipment entering this market needs to comply with each rule without question. Pelco secures your facilities with solutions that are 100% NDAA-compliant\*. This helps ensure you are meeting stringent regulations with forensic video on a cyber secure, stable and redundant system recording 365/24/7.

VideoXpert helps reduce downtime and delivers integrity, backup and monitoring of system devices to ensure maximum uptime. Cameras are equipped with RAID configuration with multiple recording streams for further reliability. As your video security partner, Pelco helps you achieve high levels of situational awareness, regulatory compliance and operational integrity. With decades of proven expertise in the government market, we are exceptionally well positioned to protect your most important assets.

**PELCO FISHEYE**

Cost-effective 360° coverage from blind spots

**SPECTRA® ENHANCED 7**

Quick and accurate detection with the latest 4K PTZ technology

**SARIX® T1 AND ESPRIT  
THERMAL CAMERAS**

Long-range detection in darkness

# COMPLIANCE & CERTIFICATIONS

## NATIONAL DEFENSE AUTHORIZATION ACT

Trusted by the U.S. government and governments around the world. Our products are NDAA 889 compliant.

**EXSITE ENHANCED 2**  
Fixed, PTZ and Compact explosion proof cameras

**PTZ WITH IR OPTION**  
Explosion proof cameras

## CYBERSECURITY

- NIST FIPS 140-2
- Risk Management Framework (RMF)
- Transport Layer Security (TLS)

## COUNTRY OF ORIGIN

In accordance with needs of customers in some segments and countries, Pelco offers include products that comply with US TAA regulations as well as COO US products.

## GSA

- Trade Agreement Act or Country of Origin (U.S.)
- National Defence Authorization Act
- Pelco GSA Contract GS-07F-9323S

# A REDUNDANT SYSTEM WITH FASTER RESPONSE TIMES

The VideoXpert VMS offers failover and load balancing, as well as multiple redundancy levels and a distributed architecture to help eliminate any single point of failure and avoid downtime. Security operations are unified in a single interface allowing for quick and efficient investigations. Intuitively designed, it is easy to expand, identify and add cameras, and export clips. It is built with intuitive workflows and advanced search capabilities, so new users are rapidly trained and immediately operational. Our easy-to-use video management system allows security professionals to see what they need to see when they need to view it. The Enhanced Analytics suite helps operators rapidly focus on situations requiring immediate attention for faster response times.

## VIDEOXPERT VIDEO MANAGEMENT SYSTEM

Highly reliable video management with an intuitive user experience.

## VX CONNECT PLUGIN

Share evidence in real-time by giving video stream access and permissions to external and third-party systems.

**SPECTRA ENHANCED 7 IR LOOK UP**  
IR illumination and 30° look up above horizon

**ESPRIT ENHANCED PTZ**  
Superior visibility and reliability in difficult lighting conditions

## UNIFIED SOLUTION TO OPTIMIZE YOUR INVESTMENT

Pelco ensures service continuity while continually developing new products and technologies to deliver the most trusted solutions. We offer seamless migration with guaranteed upgrade paths backed by advanced and trusted products that comply with stringent regulations. We can also take your existing infrastructure and leverage it to the latest technology on a modern and fast user-centric VMS platform. Pelco provides end-to-end solutions and optimizes your investment offering local training, and free online classes, warranty and support. Pelco offers a broad spectrum of products covering any situations and thoroughly tested by our engineering team to assure compatibility and optimization.

## CUSTOM SOLUTIONS: BLEND IN WITH THE SURROUNDINGS

We know that each installation and each customer brings its own unique set of requirements that may demand customized solutions. Whether the requirement is driven by aesthetics or environment, Pelco's Special Modification Request program delivers powerful, differentiated solutions. From matching a wall pattern to matching a special color, Government facilities can benefit from installing custom solutions to seamlessly blend in with the aesthetic design aspects of the property for discreet, yet secure operations.
