

STP-9WAY

12vDC 10 AMP 9 Channel boxed power supply

9 Way 10 Amp boxed PSU PTC Fuses Surge Protected. POWER SUPPLIES DIRECT range of multi way metal cased PSUs (STP-18WAYBOX & STP-9WAYBOX) use the latest technology PTC fuses, eliminating replacing fuses after overvoltage or short circuit occurs. When traditional fuses are being used for overcurrent protection it can only protect once then it must be replaced. The PTC resettable fuse is a new-type of overcurrent protection element which has two functions providing overcurrent protection and automatic reset.

Features

- Lockable hinged lid (includes 2 keys)
- Outputs : 9 x 12vDC outputs
- LED status indicators
- CE RoHS compliant
- Auto reset
- Max Output : 10 Amps
- Internal ON/OFF power switch
- Individual LED output indicator

Technical Information

- 290mm(H) x 216mm(W) x 68mm(D)
- Input voltage: 230-240Vac, 50Hz
- Output voltage: 12Vdc
- Output current: 10A max
- Output: 9 Channels
- Charging voltage: 13.8V + 2%
