

STP-KGG1SG-KS

Key switch enclosed in a green break glass unit

This key switch is ideal for overriding the access control system should doors need to be held unlocked for a period of time. The green box is in keeping with emergency door release break glass units.

Features

- Standard break glass enclosure
- Flush or surface mountable
- 2-position key switch (maintained)
- Key removable in either position
- Supplied with 2 keys (additional keys available)

Technical Information

- Dimensions: 86mm(W) x 86mm(H) x 52mm(D) including back box
- Double pole double throw contacts
- Solder contacts (no fly-leads)
- For low voltage use only
- Key type '850'
