

STP-PAXBOX

12vDC 5 AMP boxed power supply

This boxed power supply provides a 12Vdc output for powering access control products such as keypads, maglocks, electric releases, solenoid bolts, etc. Its battery back-up feature enables continuous power during mains failures when fitted with an optional lead-acid battery. Also perfect for Paxton Net2 Controllers plus 2 batteries.

Features

- Lockable hinged lid (includes 2 keys)
- Battery back-up (Battery not included)
- LED status indicators
- CE RoHS compliant
- Auto reset
- Surge Protected

Technical Information

- 272mm(H) x 332mm(W) x 76mm(D)
- Input voltage: 230-240Vac, 50Hz
- Output voltage: 12Vdc
- Output current: 5A max
- Charging voltage: 13.8V + 2%
- Back-up battery: 7Ah (lead acid)
Prod ref: BAT7
