

HPS3-4U-HXX

Rackmount

SECURE LOGIQ

With the same form factor, storage options and resilience features of the M series servers, the H series includes an upgraded Xeon Silver Octa-core processor and 32GB of DDR4 ECC Server memory as well as 10GbE networking for ultra-high throughput applications. This product range is designed for higher camera counts and basic video analytic applications (such as ANPR) as well as projects with multiple client positions and mobile device transcoding.

FEATURES

- Up to 512TB
- 32GB DDR4
- 8-core CPU
- Redundant PSUs
- Hardware RAID
- Battery backed RAID
- 2 x 250GB SSD (OS)
- WINDOWS SERVER
- 2 x 10GbE LAN

TECHNICAL

Electrical /PSU

- 100 - 240V, 50 - 60Hz
- Redundant 1+1 1200W
- 80 Plus Certified Platinum
- FCC, CUL, CE,
- EN-60950/IEC-60950

Physical

- 178mm x 437mm x 699mm
- 38Kg

Enviromental

- OPERATING TEMP:
5 - 35°C (50 - 95°F)
- STORAGE TEMP:
-40 - +60°C (-40 - 158°F)
- HUMIDITY RANGE
8 - 90% non-condensing
