

Fixing Kit: Bag of 50 cage nuts, bolts and washers

USpace fixing kit is for the fixing of 19" IT equipment onto the 19" rails within all EIA 310 compliant racks with 9.5mm square pierced holes.

Supplied in bags of 50 pieces (50 screws, 50 washers and 50 cage nuts). The nylon washer provides extra grip, especially for heavier rackmount devices and provides some cushioning against over tightening.

Compatible with

All EIA 310 compliant racks with 9.5mm square pierced holes. Also fits into the USpace cable tray to secure accessories such as cable rings.
