

Vertical Earth Bar Kit

USpace vertical earth bar kits are used for earthing active equipment. The un-tapped holes within the bar allow for earth tags to be connected with standard 6mm fasteners.

Supplied with fixings and insulated stand-offs, there are 2 lengths available to suit from 24U - 36U and 39U - 52U USpace racks.

The earth bar must be connected to main earth point.

Compatible with

USpace 5210, 4210, EDGE. Most EIA 310 compliant racks.

Specification		
Part number	RA0-0535-AA	RA0-0536-AA
Description	Vertical 1334mm earth busbar kit	Vertical 1870mm earth busbar kit
Screw head	Pozi pan head	
Fixing sizes	M6 x 10mm (screws), M6 x 22mm (stand-offs) M6 serrated nuts, M6 shake proof washers 2x each for 1334mm kit and 3x each for 1870mm kit.	
Busbar dimensions	1334mm x 3mm x 25mm	1870mm x 3mm x 25mm
Suit USpace rack heights	24U, 30U, 36U	39U, 42U, 47U, 48U, 52U
Number of holes / connection points	32	44
Material	C106 copper (busbar) Steel (fixings) Nylon (stand-offs)	
Weight	0.7kg	1kg
